Dear Hiring Manager,

I am writing to express my interest in pursuing a professional opportunity where I can apply my background in operations, logistics, and technology to contribute meaningfully to a forward-thinking organization. I recently completed my Bachelor of Technology in Artificial Intelligence and Machine Learning from GITAM University and am eager to bring my skills and experience to a dynamic team.

Throughout my academic and extracurricular journey, I have demonstrated strong leadership, problem-solving, and organizational abilities. As the Inventory and Logistics Lead for Shore Fest 2023, I managed a 20-member team and oversaw end-to-end logistics for a large-scale event. My experience as Operations Manager for the GStudio Club further honed my ability to coordinate cross-functional teams, manage finance and documentation, and ensure seamless execution of events and initiatives.

Beyond these roles, I have engaged in internships and projects that strengthened my technical and operational skills. At Vertebrate IT and Business Services Pvt. Ltd., I developed an AI-integrated e-commerce platform and chatbot. I also contributed to a startup where I streamlined logistics and vendor coordination to improve efficiency. These experiences reflect my ability to balance technical innovation with practical execution.

I am passionate about solving real-world problems through strategic thinking, collaboration, and efficient process design. I look forward to applying my skills in a professional environment and growing further as a contributor and leader.

Thank you for considering my application.

Sincerely,

Gantasala Tanooj Vardhan
